USB 2.0 RG2211

**1-Port USB 2.0 100m (330 ft) Cat 5e Extender System with Flexible Power**

Quick Start Guide

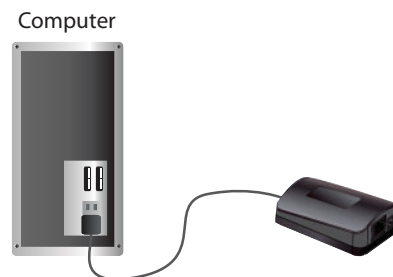

Before you get started, ensure that all the drivers required for your USB device(s) are installed.

① Place units where desired, and connect the Cat 5e (solid core) extension link cable to the Link ports (RJ45) on the local extender and remote extender.

② Connect the power adapter to the desired unit, either the local extender or remote extender.

Plug power adapter in
either local extender or remote extender unit

(Cat 5e cable not included)

Max 100 m

Local Extender   Remote Extender

③ Connect the local extender to the computer using the included USB cable.

Computer

④ Attach the USB device to the remote extender.
